

April Fool's Day

April Fool's Day, sometimes called All Fool's Day, is on the first of April every year. People can play jokes. That's why you shouldn't believe what is said to you on this day. Someone may put a lot of chili in another's food or someone may say he is going to travel around the world in 80 days. Of course all this is done just for fun. When the trick is played people say "April Fool". So, the others understand that it was just a joke.

Some of the funniest jokes were on the media – television, radio stations, newspapers, For example in 1957, BBC showed some spaghetti trees in Italy. Many people called BBC and they wanted to know more about spaghetti trees. In 2008, BBC reported that some flying penguins were flying to the Amazon rainforest.

Write True or False.

1. April Fool's Day is also called Fool's Day.
2. On this day, you should believe what your friends say or do.
3. After you play a trick on someone say "April Fool".
